PROGRESS
And Again my inmost
life rushes louder,
as if moved now
between steeper banks.
Objects become ever more
related to me,
and all pictures
ever more perused.
I feel myself more trusting
in the nameless:
with my senses, as with birds,
I reach into the windy
heavens from the oak,
and into the small
pond's broken-off day
my feeling sinks,
as if it stood on fishes.
-Rilke

Rusted brandy in a diamond glass
everything is made from dreams
time is made from honey slow and sweet
only the fools know what it means
Temptation, temptation, temptation . . .
-Waits

Oops! There goes another year.
Oops! There goes another pint of beer!!

To my talented friends and classmates . . .
Thanks for the memories of both the intense and lighthearted experiences we shared during this adventure of ours! Your friendship has made my life richer. I'm so proud of what we have accomplished and how much we have grown in this short span in our lives. Best of luck to everyone!

To my family . . .
Thank you all for your love, support, and encouragement. Special thanks to my mother, who has always been there for me and who "didn't raise any weak women".

To my wonderful husband . . .
Thanks for your unwavering support and patience, for your sense of humor, and your comradery. Your love and your belief in my abilities give me strength. This life of ours is an amazing ride, and I'm grateful to have found my soul mate to share each exciting twist and turn!

I give thanks to God, Alhamdulillah. To my family present & those gone, and to all of my friends, I love you and thanks for being there.

Now you understand
Just why my head's not bowed.
I don't shout or jump about
Or have to talk real loud.
When you see me passing
It ought to make you proud
I say,
It's in the click of my heels,
The bend of my hair,
The palm of my hand,
The need for my care
'Cause I'm a woman
Phenomenally.
Phenomenal woman,
That's me

Life's victories don't always go to the strongest, fastest or brightest, but to the man who thinks he can!

If There Is No Struggle There Is No Progress

If there is no struggle there is no progress. Those who profess to fav freedom and yet deprecate agitation, are men who want crops withou plowing up the ground, they want rain without thunder and lightning. The want the ocean without the awful roar of its many waters. This struggle ma be a moral one, or it may be a physical one, and it may be both moral an physical, but it must be a struggle. *Power concedes nothing without demand.* It never did and it never will . . . . *Men may not get all they pay f in this world, but they must certainly pay for all they get.*

Whoever's taken time to read this page, I speak to you from the bottom of my heart. This is :41 PM, Tuesday the 15th of October, 1996. Even if I die tomorrow, I have no regrets. I did not ive without sins. But the times I felt tormented by my sins are times well spent, living. I'm not ery religious, but I do think I'm devout. I cherish, as my favorite poet does, all things small and ragile. The thought of the beauty of this life, this world, all things, people, and memories is my alvation. Whatever I say, or write, words no longer seem genuine. Even some feelings felt eflexively, thoughts trivially thought, are suspect. I would like to feel that I am living, and speak he words that are genuine. Mostly I do not, and therein lies the origin of my sins and torments. But on precious moments, when I'm with a loved one, when I think a thoughtful thought, when I iscover that I do not have to taint a pure emotion by acting on it, when a long forgotten memory omehow finds its way up to my consciousness, I feel .. the grace of a being far superior and nfinitely loving.

"It's the humdrum, day-in, day-out, everyday work that is the real satisfaction of the practice of medicine; the million and a half patients a man has seen on his daily visits over a forty-year period of weekdays and Sundays that make up his life. I have never had a money practice; it would have been impossible for me. But the actual calling on people, at all times and under all conditions, the coming to grips with the intimate conditions of their lives, when they were being born, when they were dying, watching them die, watching them get well when they were ill, has always absorbed me."

> 2nd Timothy 1:7

Lord, I Need to be A Winner

Lord I need to be a winner
Not for me, but for you.
People are watching and I am
The example they will follow

Lord I need to be a winner
To show someone else the way.
I can touch more lives by being a success
So, I need to succeed today

Lord, I need to be a winner
And I'm willing to do my share
But knowing that all things good come from you
I need to know you're there

Lord I need to be a winner
Every day you give me life
And with your leadership and your strength
I know I can succeed in my business and in my personal life

And Lord when you help me win
And I stand to tell my story
I'll always remember to give unto you
The Praise the Honor and the Glory!

"... here's what I've decided: the very least you can do in your life is to figure out what you hope for. And the most you can do is live inside that hope. Not admire it from a distance but live right in it, under its roof. What I want is so simple I almost can't say it: elementary kindness. Enough to eat, enough to go around. The possibility that kids might one day grow up to be neither the destroyers nor the destroyed. That's about it. Right now I'm living in that hope, running down its hallway and touching the walls on both sides."

Asians In Medicine

A forum in which the needs and concerns of Asian/Pacific Islander-American medical students may be addressed and the awareness increased to serve the unique health care needs of that community.

* * *

Adolescent Substance Abuse Program

ASAP is a group of Hahnemann students that teach at local Philadelphia middle schools and Boys' and Girls' clubs about the functions of the normal healthy body and the adverse effects that nicotine, alcohol, and other illicit drugs have on good health.

* * *

American Medical Association

AMA-MSS represents students from all 141 allopathic and osteopathic medical schools in the United States. Membership allows the opinions of medical students to be heard at the local, state, and national levels.

These photos represent the organizations as they existed in our pre-clinical years. -Ed.

American Medical Women's Association

AMWA is a national organization of women physicians and medical students dedicated to improving the personal and professional well-being of its members and increasing the influence of women in all aspects of the medical profession.

▲ ▲

American Medical Students Association

AMSA is an independent association of physicians-in-training with a commitment to improving medical training and the nations' health. Members are involved in community service and various outreach programs.

▲ ▲

As a component of AMSA, CATCH is aimed at minority middle school students in Philadelphia in order to help them understand the health care system and to identify viable careers to pursue.

Coaching Adolescents Toward Careers in Health

Enhanced Skills Building Program

The ESBP is designed to serve as a support network for children in kindergarten through third grade who are considered at risk because of exposure to homicide, child abuse, or substance abuse. Medical students work with the children in establishing supportive relationships, promoting self esteem, learning how to work successfully with others, and developing healthy coping skills.

Family Medicine/Primary Care Interest Group

The goal of FM/PCIG is to introduce the field of Primary care to future health care professionals featuring informative speakers from within Hahnemann and from the outside community.

The purpose of this group is to bring fine arts presence to the University and to raise money for student community service groups such as the Homeless Clinics Project and the Adolescent Substance Abuse Prevention Project.

Hahnemann Christian Fellowship

HCF is a group of healthcare professionals, students, and staff with the desire to know God more deeply through Bible study and prayer, to encourage and strengthen each other, and to find fulfillment in their chosen professions.

Please join us in song ....

Sweet Home Allegheny (pronounced aluganē)

Big deals out in Pittsburgh --
Make one med school out of two.
Old Sam Hahnemann didn't figure
He'd get worked by you-know-who (name's Paroo)

We heard old AHERF make the budget:
"No extra band-aids are allowed."
But when a code's called in the E.R.,
sure don't need those suits around, anyhow.

Sweet home Allegheny
ate my med school class for lunch.
Sweet home Allegheny --
Don't our name count for much?

We all loved Dr. Rubertone,
but allegheny gave him the boot.
Managed care does not bother us...
does your conscience bother you, Mr. Paroo

Sweet home Allegheny
took my med school for a ride.
But they gave us back a green space --
Sherif Abdelhak's got his pride.

Now Harvard Med School's got the big name
and old Johns Hopkins got one, too.
But listen up, fellow Hahnemann grads:
no one else got me and you (boy that's true!)

Sweet home Allegheny (oh sweet home)
This big business ain't no game.
Trying to be like Dr. Oaks, there
while facts and figures took our name

Sweet home Allegheny,
don't take everything we had.
Maybe AHERF saved the day here
but losing Hahnemann felt so bad.

Hahnemann University: A Historical Look Through Time

Samuel Hahnemann And Homeopathy

Christian Friedrich Samuel Hahnemann (pictured at top right) was born in Meissen, Germany on April 10, 1755 (or April 11th depending on the source). He received his medical education at the University of Erlangen and graduated in 1779.

Hahnemann did not agree with the medical beliefs of that time, which were centered around the idea that disease was a force which needed to be opposed by an equal or greater force. The treatments used included blood letting, violent purging, induced vomiting, prescriptions with many (sometimes greater than 20) ingredients, and corporal punishment for the insane and delirious. After experimenting with cinchona bark, Hahnemann wrote a book, "Organon of the Art of Healing" in 1810, which proposed his new ideas that became known as homeopathy. The basic premise was that the body has naturally endowed powers of combating disease, and thus the goal of treatment is to stimulate these natural mechanisms. His four principles were: 1.) drugs should be tested in healthy humans; 2.) a single remedy should be used; 3.) the minimum dose to cure should be used; and 4.) "let similars be treated by similars" (the translation of similia similibus curantur). The first three principles are still followed today.

Samuel Hahnemann became a well known and well respected physician and the father of homeopathy. Late in his life he moved to Paris where he died in 1843. He never travelled to the United States, but his ideas did. An American by the name of Dr. Hans Burch Gram became familiar with homeopathy in 1823 while training in Copenhagen. When he returned to New York in 1825, he brought homeopathy with him. It soon spread throughout the states, but was best known in Pennsylvania.

Homeopathy in the United States was most popular around the turn of the century with 22 homeopathic colleges in existence, four of which were named Hahnemann. There were also many hospitals named after Hahnemann; one other still exists today in Worcester, Massachusetts. Our school in Philadelphia was the first successful homeopathic medical school in the world, and also the last in this country.

Several pictures (left, bottom right, middle right) are shown of different views of the monument of Samuel Hahnemann at Scott Circle in Washington, D.C. which was dedicated on June 21, 1900. Dr. J.H. McClelland, an 1867 Hahnemann graduate and a member of the American Institute of Homeopathy, initiated the conception of the monument and got Congress to approve its construction. Over 2500 people contributed to the fund to build the monument which cost approximately $48,800. Many guests of importance attended the dedication including President William McKinley.

History of the Homeopathic Medical School and Hospital

In 1834 the first homeopathic association in the United States formed in Pennsylvania. It was called the Homeopathic Society of Northampton and Adjoining Counties. Then, in 1853, the North American Academy of Homeopathic Healing Art, later known as the Allentown Academy, was founded as the first homeopathic medical school in the world. Dr. Constantine Hering was its founder and president and is known as the "father of homeopathy in America." The Academy closed in 1843 due to financial difficulties and its exclusive use of the German language.

The Homeopathic College of Pennsylvania was founded by Drs. Constantine Hering, Jacob Jeanes, and Walter Williamson on April 8, 1848 - five years after the Academy closed. Fifteen students paid $140 each to enroll in a two year program taught by seven faculty starting on October 1, 1848. The school was located in a couple of rooms in the back of a building at 229 Arch Street (the numbering later changed to 635 Arch Street). After the college relocated in 1849, the building was used for the female medical college, now known as the Medical College of Pennsylvania.

The college moved to larger facilities at 1105 Filbert Street in September 1849, the site of Reading Terminal today. The building was designed by Thomas U. Walter who was also the architect of Girard College and the dome and the wings of the U.S. Capitol.

In 1865, women were first allowed to sit outside the lecture halls and listen but were not allowed to enroll.

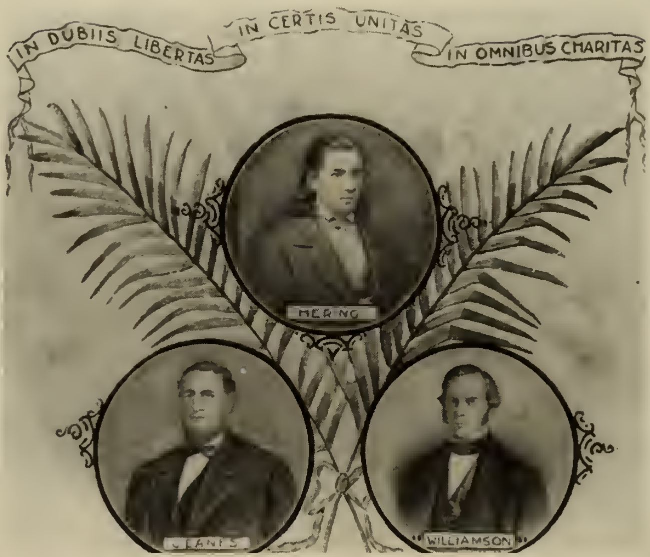
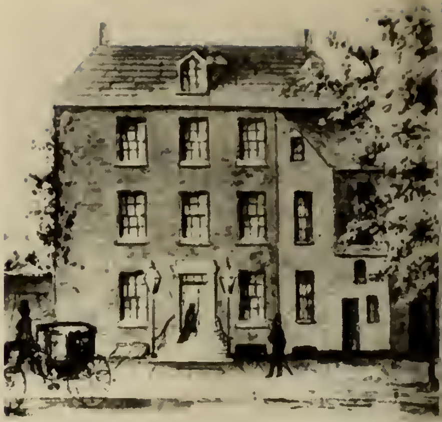
Announcement of Homeopathic Medical College Classes, 1848

Allentown Academy (1835-1843)



Dr. Constantine Hering was born and educated in Germany. While researching for a book to oppose Samuel Hahnemann's views on homeopathy, he eventually converted to homeopathy. He was the founder of all three of H.U.'s progenitors and the moving force of homeopathic education in the U.S. For this he is known as the "father of homeopathy in America." His work on the effects of snake venom and his discovery of the medical value of nitroglycerine were major contributions to medicine. Dr. Walter Williamson was born in Pennsylvania and trained at the University of Pennsylvania. While practicing medicine, he became acquainted with Dr. Hering and interested in homeopathy. He was the first professor of the Principles and Practice of Medicine for the Homeopathic Medical College. The motto 'In certis unitas, in dubiis libertas, in omnibus charitas' ('In things certain, unity; in things uncertain, freedom; in all things charity') was designed by Dr. Hering when he established the Hahnemann Medical College. The motto was replaced in 1982 with 'Cura animarum, eruditio artis, medicine' ('Concern of minds, teaching of science, healing arts').



Homeopathic Medical College, 229 Arch Street

In 1867, Dr. Hering and some of hi associates resigned because of disagreement with the majorit stockholder. They then secured the charte of the Washington Medical College o Philadelphia and changed the name to th Hahnemann Medical College o Philadelphia. The school enrolled 6 students with classes held at 130 Chestnut Street and opened on Septembe 30, 1867.

On April 2, 1869, the Homeopathi Medical College of Pennsylvania merge with the Hahnemann Medical College o Philadelphia retaining the Hahneman name as a tribute to the founder o homeopathy. Classes were held onc again at 1105 Filbert Street.

The first Homeopathic Hospital o Pennsylvania opened at 24th an Chestnut Streets in 1852 with Vincent L Bradford as the President, but close after two years because of financia difficulties.

The Homeopathic Hospital o Pennsylvania at Philadelphia, a 5-story 30 bed hospital, opened in 1871 behin the medical college on Cuthbert Street On May 16, 1885 the hospital an medical college merged to form th Hahnemann Medical College an Hospital of Philadelphia.

The medical college building on Broa Street, which is the current site of th South Tower Hospital, was completed i 1886. In the same year, Hahneman absorbed the Pennsylvani Homeopathic Hospital for Children.

In 1890, a 150 bed hospital on N. 15t Street, the current site of the Ne College Building, was completed afte six years of work. The land wa purchased for $103,666.67 in 1882. Th school of nursing also opened i

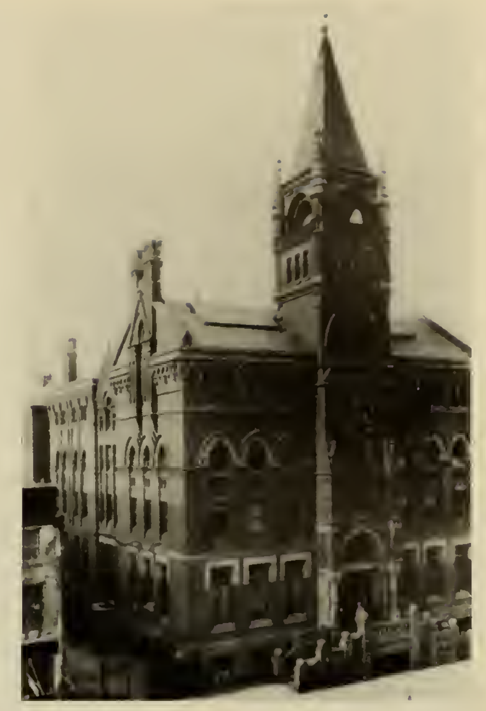
1890 with 20 students. The student nurses were required to reside in the hospital and perform any duty outside or inside the hospital to which she was assigned. Between 1906 and 1908, the student nurses' residence, maternity building, and power house/laundry building were opened on N. 15th Street just north of the N. 15th St. hospital.

The medical college building was demolished on Broad Street in 1927 to build the "Greater Hahnemann", now referred to as the South Tower Hospital. This 738 bed, 20 story hospital at 230 N. Broad Street was completed in 1928 for $2.5 million; it was the first high rise teaching hospital in the country and the second largest private hospital in the United States. Its modern amenities included a steel skeleton, fireproofing, telephone and bathrooms in each private room, six high speed and ultrasilent elevators, hallway flashing lights for patient requests and tables which fit over the beds. Dr. C. Hering's son, Walter Hering, was president of the Board of Trustees at Hahnemann and was pivotal in raising money to build the "Greater Hahnemann." The medical college moved to the refurbished old hospital building on N. 15th Street.

In addition to the hospital on Broad Street, the "Greater Hahnemann" plans included a medical college on N. 15th Street. The medical college building was to consist of a tower with two wings. Because of financial constraints, only one wing was built. The rest of the planned construction did not begin until the late 1960's. The 7 story Klahr Building was completed in 1938 to be used for lecture halls and laboratory facilities.

In 1941, the first females were admitted to the Hahnemann Medical College.



Hahnemann Medical College (1886), Broad Street

Klahr Building (right) & Medical College (left). N. 15th Street (photo from 1950's)

Hahnemann Outpatient Clinic (1944), 1417 Race Street

Hahnemann Medical College (NCB-1973), N. 15th Street

The Northwest Grammar School at 1417 Race Street was purchased and used for an outpatient clinic in 1944. The graduate school was founded in 1949. In 1963, the School of Nursing Building, known as the SHSH building today, opened at 15th and Race Streets to provide housing and classrooms for 185 students.

The 5 story Myer Feinstein Polyclinic at 216 N. Broad Street was completed in 1967 and housed one of the largest radiation therapy units in the country. The 17 story Elmer Holmes Bobst Institute for Clinical Research was dedicated and used to house research labs and medical and surgical suites.

The old 15th Street hospital was demolished in 1968 to make room for construction of the New College Building which was actually the completion of the original plans that had been updated for the "Greater Hahnemann." The College of Allied Health Professions began and moved into the old School of Nursing building at 15th and Race Streets. The School of Continuing Education formed in 1972. In 1973 the 19 story tower known as the New College Building (NCB) and its 8 story wing was completed and attached to the shell of the original Klahr wing. It contained three lecture halls, a 700 seat auditorium (Geary) and 18 multi-use teaching labs, research labs, and a library.

Stiles Hall, a 16 story high rise student residence at 15th and Wood Streets, opened in 1974.

Construction of a 21 story hospital at Broad and Vine Streets began in 1976 and was completed in 1979. It was and still is known as the North Tower Hospital. It included 226 patient rooms, an emergency room, computer controlled temperature regulation, a telephone and television for each patient, semi-private rooms with bathrooms and two solariums. The Cardiovascular ICU on the 21st floor was not completed until 1985.

Hahnemann became a university on August 11, 1981 with four full accredited schools - the School of Medicine, the Graduate School, the School of Allied Health, and the School of Continuing Education.

The Monty Hall-Variety Club Children's Pavillion was completed on the fourth floor of North Tower Hospital in 1981. The Arthritis and Lupus Study Center opened at 221 N. Broad Street in 1983.

In 1991, the plans for the development of Hahnemann's North Campus, on Broad Street between Vine and Wood Streets included a building with classrooms on the block between Wood and Vine Streets and a student life center and outdoor area with a green space. In 1992, the Philadelphia Athletic Club was demolished and a parking garage for approximately 800 cars opened in 1994. And the Alfred W. Martinelli Sesquicentennial Park is under construction. A dedication ceremony has been set May 23, 1997, to coincide with the Hahnemann School of Medicine commencement.

1890 Hospital Rules

Listed below are just a few rules from the 50 pages of hospital rules of 1890. It is interesting that some of the rules of 1890 had fallen out of favor during the 1900's but are standards again in 1997.

- Patients suffering from contagious diseases shall not be admitted to the Hospital
- Persons having chronic or incurable diseases shall not be admitted as charity patients
- Private ward or private room patients shall pay from $1.50-$5.00 per day . . . Security must be furnished for prompt payment weekly or at termination of stay.
- No patient shall be allowed to remain in the Hospital longer than three months
- Free patients are expected to perform such services as their condition will permit
- Use of tobacco is strictly prohibited in the wards
- Improper language or conduct and incivility will not be tolerated
- No special examination of females . . . shall be made by any resident, except in the presence of one of the attending staff, or a female nurse
- The face and hands of all patients shall be washed each morning, and a general bath given once each week, if practical
- Breakage or injury to property . . . must be made good by the employee causing the breakage
- Nurses must keep their sleeping rooms as well as private rooms of patients and their wards in a clean and orderly condition
- Nurses will have two weeks vacation . . . each year, at such time as they can best be spared from their work
- Nurses must respond cheerfully to any and every emergency call
- Nurses are not permitted to do the doctors sewing or mending
- Nurses are not allowed in the doctor's rooms, or in the pharmacy
- Nurses are allowed 18 pieces, including bed linen, in the wash each week

Medical Curriculum, Clinical Training and Extracurriculars

The Allentown Academy, the progenitor of Hahnemann Medical College and the first homeopathic school in the world, was a sound and distinguished endeavor in 1835. Based on the high class German universities of its founders, its curriculum included physical examination, semeiotics (symptomatology), pharmacodynamics, therapeutics, botany, pathology, physiology, anatomy, zoology, surgery, midwifery, diseases of women and children, medical jurisprudence, phytology, physics, mineralogy, chemistry, geology, astronomy, mathematics, and the history of medicine. The 16 students were required to pass a Colloquium, to present a Curriculum Vitae, and to write a dissertation on a medical subject in order to graduate.

The Homeopathic Medical College began with seven professors and classes in 1848. By the end of the 1800's, there were more than 38 instructors giving lectures and directing laboratory and clinical work. The attendance at lectures was mandatory and a thesis was required of medical students to graduate until 1885. The handwritten papers were on topics ranging from Seasickness to Electricity in Medicine and Surgery. The theses were bound by year and are still maintained at Hahnemann.

The graduation requirements in 1849 were that the candidate "be of good moral character; be possessed of sufficient preliminary education; have attained the age of twenty-one; have applied himself to the study of medicine for three years; have attended two courses of medical lectures, the last of which must have been in this institution; and have been the private pupil of a respectable practitioner of medicine." This was similar to the requirements of other medical schools such as the University of Pennsylvania, Jefferson, and Harvard. Even back in the late 1800's, the commencement ceremonies were held at the Academy of Music.

Medical training in homeopathy lasted only two years when it first began, just as it did in allopathic medical schools. In 1869, Hahnemann Medical College started offering three years of medical training. This was the second medical school in the country to do so; the first was Lind College of Medicine, which is now known as Northwestern. Then in 1887, three years of medical school became mandatory at Hahnemann. At that time the classes began to be separated by year so that each class year (i.e., 1st years, 2nd years, 3rd years) had their own lectures and exams. The four year medical training became mandatory in 1894.

Once the medical training was expanded, clinical instruction was added. It consisted of a series of 'clinics'. The class was divided into sections, and each section went to 'clinics' daily for that rotation, each lasting a month. The rotations included eye and ear clinic, gynecological clinic, surgical clinic, and general medical clinic which was split into general medicine, diseases of the heart and lung, dermatology, and neurology. In addition, there were clinics in medicine and surgery once a week for the whole class.

Other changes in medical education occurred in the early 1900's. From 1909 to 1911, Dr. Flexner did a comprehensive study of medical education and schools in the United States which emphasized the importance of bedside teaching in the wards and more clinical instruction in the dispensary and outpa-

Laboratory, 1900

Biology Laboratory, 1918

Dissecting Room, 1893

nt clinics. This, unfortunately, was expensive so many schools ssolved; only 12 out of 42 medical schools survived in Missouri, out of 43 in New York and 8 out of 20 in Pennsylvania. rthermore, the AMA began to classify medical schools in 1910, ing them ratings for quality of education. Hahnemann Medical llege's first ranking was Class A which was the best possible.

As major advances were made in medicine, the popularity of meopathy declined and Hahnemann Medical College also gan to shift away from homeopathy. The first step occurred in 45 when homeopathy became an elective rather than a quired course. Then, in 1959, the last homeopathy elective was opped from the curriculum. Hahnemann Medical College was e last homeopathic medical school in the country, thus bringing a close the era of homeopathy in the United States.

Besides the academics of medical school, students were involved in organizations and sports. The organizations included ternities: Alpha Sigma, Phi Alpha Gamma, Pi Upsilon Rho, Phi mba Kappa, and Kappa Phi Sigma; clubs: Ptolemy Club, Il colo Italiano, and the Hahnemannian Institute; musical clubs: ee Club and Orchestra; and medical specialty societies of which ere were nearly one for each specialty by the 1950's. The Phi mbda Kappa fraternity, Alpha Beta chapter was founded in 26 at Hahnemann and still exists today. In addition, the hnemannian Institute is now know as the Medical Student titute (MSI).

Athletics were very important in the early Hahnemann years. e school had seven tennis courts, a track and a ballfield at 20th d Callowhill. They had football, basketball, swimming, baseball, and track teams. Hahnemann played many colleges such as Dartmouth and Haverford, as well as other medical schools such as Jefferson and Penn. The Class of 1900's (MDCCCC) yell was:

"Succus entericus, gastric bile,
Auricles, Ventricles, sigmoid, chyle,

MEDIC

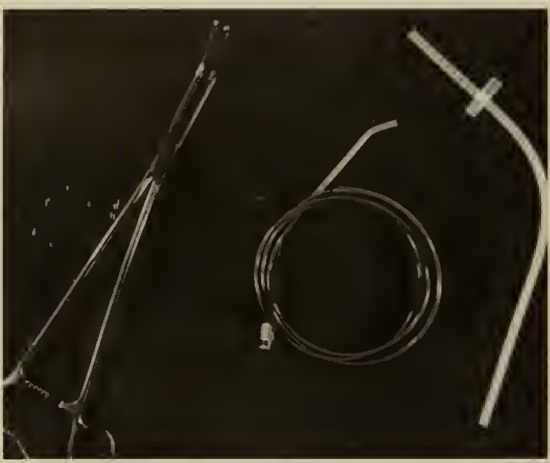
The Hahnemann medical school yearbook, the MEDIC, was first published in 1928. At that time, the name was copyrighted and the yearbook has been known as the MEDIC ever since. The first editor of the MEDIC was Carl C. Fischer who became instrumental in convincing the medical community to accept Hahnemann as an allopathic medical school.

The 1928 MEDIC, at 168 pages, included faculty and administration, seniors, and underclassmen, organizations, athletics, and humor. The 63 seniors each had their own page with a portrait photograph and a brief biography on the person. The humor section had quotes from the faculty and students.

MEDIC 1982
MEDIC 1980

Hahnemann's Significant Accomplishments

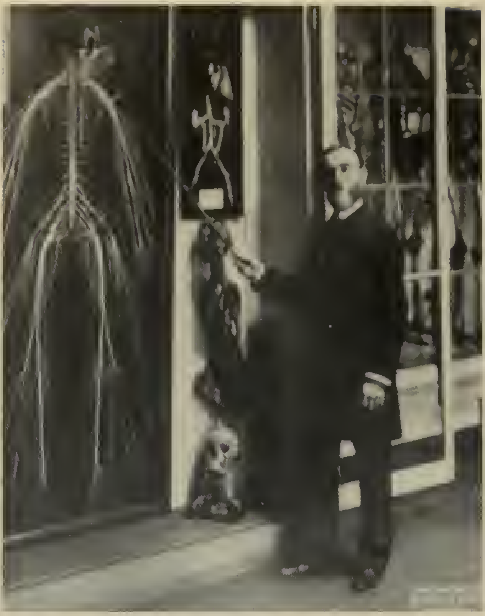
Dr. Carl Vischer (1887 alumnus) uses the 'Vischer incision' for appendectomies in 1899



Dr. Victor Satinsky developed the Satinsky clamp (above left) for use in portocaval shunts in 1948, but it became invaluable to Dr. Bailey for his cardiac surgery. In 1949, Dr. J. Stauffer Lehman (former Chief of Radiology) developed the Lehman Aortography Catheter (above center) for his work in coronary arteriography. He also designed the Lehman Ventriculography Catheter. Dr. Osvaldo Ramirez developed the Ramirez winged AV shunt (above right) for kidney dialysis in 1966.

The first Creative Arts Therapy Masters degree program in the world began at Hahnemann in 1967. In 1971, the first Physician's Assistant Program in Pennsylvania started.

The consolidation of Medical College of Pennsylvania and Hahnemann University led to the first merger of U.S. medical schools since World War !. This consolidation is becoming a national model for how medical education can respond to societal changes.



In 1893, Dr. Rufus Weaver received a gold medal at the Columbian World fair exhibition in Chicago for this dissection of the human nervous system named 'Harriet' (an employee of Dr. Weaver who donated her body to science).

Dr. Henry S. Ruth (1923 alumnus) made significant contributions to anesthesiology including being a founder of the original Board of Anesthesiology (1938), president of the American Board of Anesthesiologists (1942-44), first editor of *Anesthesiology* (1940-55), first representative of the Section of Anesthesiology to the AMA House of Delegates. Dr. Kenneth Keown (1941 alumnus) worked with Dr. Bailey and Dr. Likoff. He pioneered the use of lidocaine as an antiarrhythmic. He was the anesthesiologist when Dr. Bailey performed the world's first successful valvular surgery.

University MedEvac

The Einthoven electrocardiograph machine (above) w
installed at Hahnemann in 1920. It was one of the f
machines in the country at the time. It was installed
the basement and connected to the patient's room
large silver electrodes. In 1944, Dr. William Likoff (19
alumnus, CVI director, and Hahnemann preside
helped to develop the continuous recording electrocar
ogram. He is also known for his work on medi
management of heart disease. Dr. Joseph R. DiPal
(former Dean of Hahnemann Medical College and dir
tor of CVI) studied the effects of drugs on cardiovascu
disease. He also did EKG's of the venus fly trap plant a
showed the conduction similarity between plant
mammalian tissue.

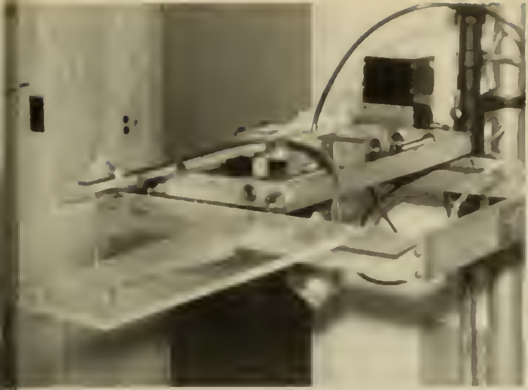
a completely automated Emergency Command Syst
(for code 99-cardiac arrest) in 1969. With one phone
many people are alerted of the code within seconds.
project was initiated by Dr. Wilbur Oaks in 1963.
1986, Hahnemann was designated as the Delaw
Valley's first adult Level 1 Regional Resource Trau
Center. In that same year, HU and Lehigh Valley Hosp
joined to form the University MedEvac (left).

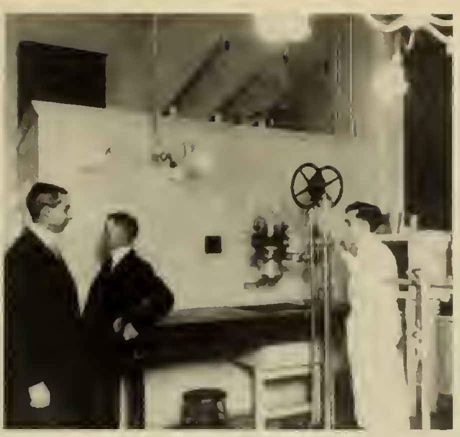


920, the Department of Radium Therapy was established by Dr. Fr ık Benson. The Emery Lab of Experimental Radiology was the fir program in Philadelphia to study the radiation effects on cancer. A yroid nuclear scanner (above) was built as Hahnemann in 1952; as the second handmade imager in the country. The Radiation apy Department became the regional center for the area in 8.

ARDIOVASCULAR RESEARCH INSTITUTE

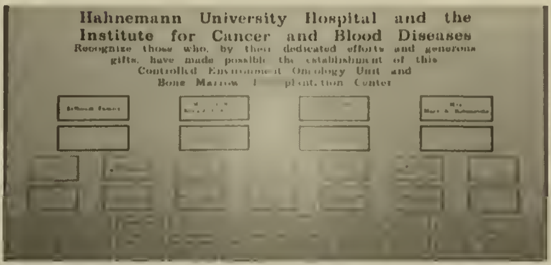
Cardiovascular Research Institute (CVI) was established in 1948 e first cross-disciplinary heart research institute in the country. gan in a garage between the South Tower Hospital and a Used shop on Broad Street (above). The CVI was renamed for Dr. am Likoff in 1976.

nemann was designated as a national ALS clinic e of four in the country) in 1984. ALS is also known ou Gehrig's disease.



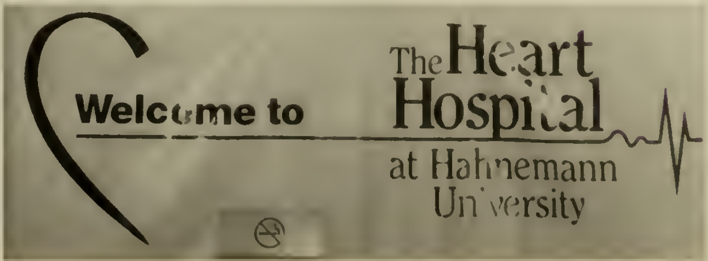
The first school of X-ray technology was founded in 1921 by Arthur Morgan. Above X-ray equipment was from 1913.

A Hahnemann pharmacist, Joseph D'Ambola, substituted a generic drug for that prescribed by the physician. This was illegal in 1959 and went to court where D'Ambola won. Subsequently, legislation was passed by the Pennsylvania State Board of Pharmacy allowing hospital pharmacies "to dispense a make of drug other than that prescribed so long as it is generically or chemically equivalent". (Hahnemann's 1954 Pharmacy above)

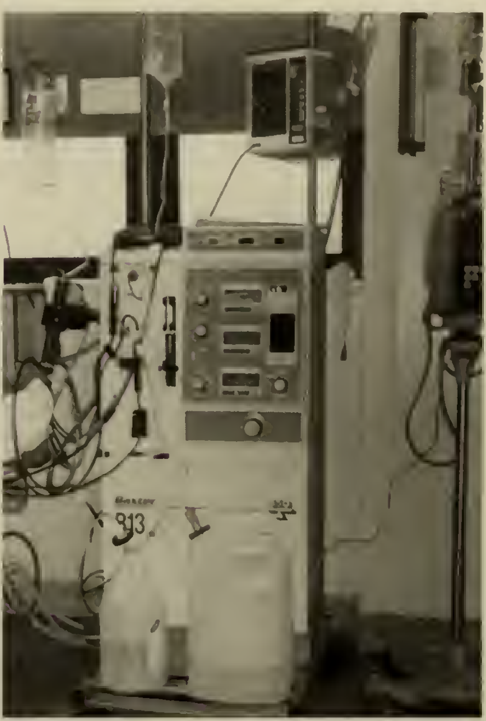


Hahnemann University Hospital and the Institute for Cancer and Blood Diseases
Recognize those who, by their dedicated efforts and generous gifts, have made possible the establishment of this Controlled Environment Oncology Unit and Bone Marrow Transplantation Center

The Orlowitz Institute for Cancer and Blood Diseases (Orlowitz was later dropped) was created in 1975. In 1976, the Institute performed the first allogenic bone marrow transplant in the tri-state area for the treatment of leukemia. In 1983, the first autologous bone marrow transplant was performed. The Institute opened a new Controlled Environment Oncology Unit and Bone Marrow Transplantation Center in 1988.



Dr. George Geckler (1919 alumnus) produced the first phonographic recording of the human heart sounds in 1940. In addition, Dr. Geckler designed the 'walkthrough' heart at the Franklin Institute.



In 1963, the first kidney transplant in the area was done on an 11 year old at Hahnemann. The first major outpatient dialysis unit in Pennsylvania was opened in 1970.

In 1993, the Heart Hospital at Hahnemann University Hospital was created; it is known as 'a hospital within a hospital' (left). One third of the beds in the hospital were part of the Heart Hospital. Hahnemann was the first health center in the region to use the Novacor N100 Left Ventricular Assist System, an implantable electric device to help support patients waiting for a heart transplant, in 1994.

The Merger

On November 18, 1993, one of the most important recent events occurred in Hahnemann history. For the first time it was announced that Hahnemann University would be owned by an outside corporation - Allegheny Health, Education and Research Foundation (AHERF). Many changes to Hahnemann's existing structure were announced. The infrastructure changed, and the schools of Hahnemann University and Medical College of Pennsylvania merged. The merger became official on January 1, 1995 when the separate entities of Hahnemann University and MCP were eliminated to form a combined entity called Medical College of Pennsylvania and Hahnemann University (MCPHU). On Thursday, June 20, 1996, it was announced that the medical school name would be changed to the MCP Hahnemann School of Medicine. Several other changes were announced on that day. Medical College of Pennsylvania and Hahnemann University, the academic health center resulting from the 1993 consolidation of two venerable institutions announced its new name: Allegheny University of the Health Sciences. As of this writing, the affiliated hospitals, now named Allegheny University Hospitals, include:

- the former Bucks County Hospital in Warminster, now named Allegheny University Hospitals, Bucks County;
- the former Hahnemann University Hospital, now name Allegheny University Hospitals, Hahnemann
- the former Medical College of Pennsylvania Hospital, now named Allegheny University Hospitals, MCP; and
- the former Elkins Park Hospital, now named Allegheny University Hospitals, Elkins Park;

In addition to the medical school's name change, the School of Health Sciences and Humanities (SHSH) was renamed the School of Health Professions. The School of Nursing and the School of Public Health retained their original names.

Allegheny University of the Health Sciences is part of the Allegheny Health, Education, and Research Foundation, a statewide integrated academic health system with facilities in the Philadelphia region and Pittsburgh, PA. In addition to the University and the Allegheny University Hospitals, AHERF includes, in Philadelphia, St. Christopher's Hospital for Children, and in Pittsburgh, Allegheny General Hospital and the Allegheny-Singer Research Institute, as well as a network of community-based physician practices.

1993 Consolidation Led to Significant Achievements

The consolidation of Medical College of Pennsylvania and Hahnemann University enabled the following significant accomplishments:

* First Merger of U.S. Medical Schools since World War I.

* Charter of the only School of Public Health in Philadelphia. The school enrolled its first class for matriculation in August, 1996.

* Establishment of the Institute for Women's Health, a comprehensive, interdisciplinary program of women's health research, education, and clinical care.

* Re-establishment of a School of nursing and Recruitment of a nationally known nursing educator, Dr. Gloria Donelly, to lead the school.

* One of only 16 medical schools nationwide to receive funding from the Robert Wood Johnson Foundation's Generalist Physician Initiative to support increased training of primary care physicians.

* Lead the only group in the Middle States region to receive funding from the Robert Wood Johnson Foundation and Association of American Medical Colleagues to increase health education initiatives for African American, Latino, and Native American students.

* Received $21 million grant from the U.S. Department of Commerce to further the development of telemedicine. This grant will help fund the development of clinical databases which can be computer accessed by physicians across the state.

* Recruited a number of the finest physicians, surgeons, and scientists in the region and nation to Allegheny University of the Health Sciences and Allegheny University Hospitals.

interpretation hazardous.

Hippocrates

Medicine, the only profession that labors incessantly to destroy the reason for its existence.
James Bryce

To laugh often and love much; to win the respect of intelligent persons and the affection of children; to earn the approbation of honest citizens and endure the betrayal of false friends; to appreciate beauty; to find the best in others; to give of one's self; to leave the world a bit better, whether by a healthy child, a garden patch or a redeemed social condition; to have played and laughed with enthusiasm and sung with exultation; to know even one life has breathed easier because you have lived . . . this is to have succeeded.

TO THE CLASS OF 1997

Hahnemann
University

Dear Colleagues, Members of the Class of 1997:

As your undergraduate medical careers draw to a close, you are probably experiencing mixed emotions. Elation at having accomplished what you have, your M.D. degrees and your residency training positions, some sadness at leaving behind familiar faces of friends and colleagues and, perhaps, hesitation about moving forward into the unknown - a new city, a new hospital, more responsibilities. Have no fear. You are ready for it all. I have watched you all from day one, remember back in Histo, when you were "green"and the tissues were mostly pink and blue. You are certainly no longer novices; you are ready and I, for one, am most proud of each and every one of you.

Remember your teachers and undergraduate medical institution for what they have helped you become. I hear from recent alumni frequently, and they comment on their preparedness for residency and the excellent training they received here. I hope you will also feel that when you are out there in your programs. Take care of yourselves and give as much attention to your personal lives as to your professional lives.

Keep in touch and let me hear your news

Fondly,

Sue Zarro

We the Class of 1997 do here by Bequeath...

To Dr. Soslau--	A Copy of "How to Teach" by UR. A. Bunghole	Jason Scopp
To Albert Charron--	A permanent room at Lehigh Valley Hospital	anonymous

The Medic
In The Making

Jason Asher Damsker, M.D. and
Keith Evan Damsker, M.D.

As you embark on your chosen careers, we wish you much success, happiness, and good health. Both of you have worked extremely hard to achieve this wonderful goal and deserve the very best that life has to offer.

Love, Mother, Dad, Grandmom, Grandpa,
Rebccca & David

Thomas James Doyle, M.D.

Congratulations T.J.D., M.D. Looking forward to your first W-2 in a long time!

Love, Mum, Dad, Russ and Coci

Sharon Fine, M.D.

Dear Doctor-wannabe,

Attagirl! Job well done.

Love, Steve

Robert W. Gardner, M.D.

It's always meant so much to have a special son like you, to feel such pride in all you've done and all you plan to do. And so this graduation message comes with love to say: We wish the best that life can bring today and every day. We love you, Dr. Rob!

Mom and Dad

Akash Bobby Gupta, M.D.

We cannot find the words to express how proud we are of you. The last four years have been challenging but your perseverance and determination have seen you through it. Congratulations! We love you and are always here for you.

Your wife, Dad and Mom, Brother and In-Laws

Cheryl Lynn Kemerer, M.D.

Congratulations to Cheryl Kemerer, M.D. We are so proud of you. You have worked very hard for this day. We know you will be a wonderful and caring pediatrician. We love you.

Mom & Bill

Tanya Soon Lee Krafft, M.D.

You have enriched our lives. Your dreams and discipline, passion and persistence, sensitivity and assertiveness have brought you to this day. As their physician, others now also will prize your compassion and proficiency. You have our admiration and love.

CONGRATULATIONS BUFFY!

Mom, Dad 'n brothers

Susie I. Lee, M.D.

Congratulations! Our whole family is very proud of you and of the hard work you've put in to becoming a doctor. Thanks for enriching us with your knowledge of medicine at the dinner table. You are a very kind and smart person and will become an excellent doctor.

Love Dad, Mom, Linda, and Ben

Martina Lynett Dockery, M.D.

Martina, one of the greatest gifts God has given us is having you in our lives. You have brought us so much joy. We know Jesus will guide you every footsteps in all that you do and become in life. We are proud of your achievements.

Love, Mom & Pop

Eric James Feese, M.D.

Eric, we are so proud of your many achievements. Hope you never lose you determination to be "the best". You are the first "Doctor Feese". Best wishes for a successful career and fulfilling personal life.

Love, Mom & Dad

Sean G. Fleming, M.D.

Congratulations, Sean. We are proud of you. You will be a great doctor!

Love, Mom & Dad & Mary & Rich

David Thomas Greco, M.D.

Congratulations, David! We are so filled with pride and love for you at this special time. Your long-time dream is finally coming to fruition. Being the man that you are, we are confident that you will make a difference in your chosen profession.

Much love, Mom & Dad

Scott G. Hartman, M.D.

Your faith, determination and persistence have earned you the right to carry a different kind of bag. We are extremely happy for you and very proud of you.

Love and best wishes,
Dad, Mom, Ginger, Sandy, and Jens

Geoffrey Lee, M.D.

Congratulations, Geoff! We are so proud of you and so happy you are following father and grandpa's footsteps. We know you're going to be a good doctor. We all love you very much!

Dad, Mom, Vivian & Melanie

Gregory Kobak, M.D.

Dear Gregg,

Your dream since age six has finally come true. We truly admire your determination and commitment for the time and effort needed during this long journey.

With great pride and joy. We congratulate you and the class of 1997. We wish you all the best.

Love you, Mom, Dad, Doug, Andy & Molson

David Jack Maleh, M.D.

After twelve years of school, four years of undergraduate school and four years in Hahnemann, you can finally take a break, or so you think! We are very proud of you and love you very much. We wish you the very best in life and congratulations on your upcoming wedding.

Love, Mom & Papi

LOOK WHO'S TALKING

Christopher & Christine Meyer, M.D.
We are very proud of you C2! Your perseverance paid off. Congratulations on a job well done, and may God continue to bless you in the future.
Love, Mom, Dad & Taryn

Richard G. Santamaria, M.D.
We are so very proud of you; of all your accomplishments and the sensitive & loving person you are. You have succeeded in medical school and we know you will continue as a great and caring physician. God bless you.
Love always, Mom, Dad, Jennifer and Amy

Lisa Schlackman, M.D.
Lisa, you have always strived for and achieved excellence. Your combination of initiative and energy provide the substrate for an excellent clinician. Your concern for all aspects of patient care will enable you to become a superb, complete physician. We are very proud and love you.
Mom, Dad, Keith & David

Brian J. Shin, M.D.
Congratulations, Brian! We are proud of you, but it is only the 2nd step. There is not any short cut in medical way. Step by step do your best. The joys during the processes will be your rewards.
Love, Mom & Dad

Gustavo Ruiz, M.D.
Congratulations on your outstanding achievement. Your dedication and strength are apparent as you have sacrificed and struggled to conquer what a unique few are even capable of achieving as an inspiration and mentor to others, I wish to honor you.
Love, Shirley

Joe Vizzoni, M.D.
Joseph, today your life long dream of becoming a doctor is a reality. Dad, Mom, Nonna, Michael, Kristin and I are very proud of you.
Congratulations! Our support and love always!
Love, Your sister Lucy

Congratulations to M.D.'s:
Colette, Cecelia, Aida, Darlene, Zoyla, Angie, Kym, Denise, Lyla, Joseph, Dahlia, Aaron, Cordell, and Seigrid
...AND STILL WE RISE!
God Bless Love, **Martina**

"Mi familia Amigos, LMSA, SNMA, Faculty":
¡Gracias! ... A roller-coaster ride about to end.
I screamed, I laughed, and I cried. Thanks for your company and support. - **Gustavo Ruiz**

Sukanya Srinivasan, M.D.
Sukanya, we are extremely proud of you and we are sure you will continue to make us even more proud in all your future ventures.
Grandma, Mom, Dad, Ram, Sudha, Hari & Henry

Scott Brian Sapperstein, M.D.
We are so proud of you and the worthy profession which you have chosen to utilize your many talents, your intellect, your creativity, curiosity and compassion. You will be an awesome doctor!!
Good luck, Scott, in realizing your life's dream.
Love, Mom, Dad, Evan, Tami, and Grandma

Vivian Ong Tan, M.D.
You have worked hard and finally, it's here...your Graduation! Successfully, you went soaring and, deservingly, earned honors. We are filled with joy and tears of happiness. As prayers helped you, know that God will guide you as you walk with Him.
With love and support,
Papa, Mama, Lowell, Verna and Violeta

William (Rod) Short, M.D.
You made it!! It has been a long & rough four years. We can not tell you enough how proud and happy we are for you. Best of luck in all you do and may all your dreams come true.
Love always, Sandi, Dave, Stacey, and Lance

Scott Schucker, M.D.
Congratulations Scott on four fantastic years at Hahnemann. We knew you could do it if given the chance. You have made us very proud. Best of luck in your Residency and future career in Family Practice.
Love, Mom & Dad

AND MESSAGES FROM THE CLASS...

To my neighbors in the front left corner- I miss you already! Congratulations and best wishes for happiness and success in the coming years. - **Sharon Fine**

I'm Streaking Baby!
LIVE FREE
Play Disc
Hahnemann Ultimate Frisbee Club-Class of '97

Dear Carol and Curtis,
Amazing but true: We're finally finished! (Until we start our residencies, that is.) Thank you both for your support, humor, and for just being there to hang out with. Congratulations and I'll miss your smiling (usually) faces. Love, **Sharon**

CONGRATULATIONS TO MY CLASS!
Kris - I cannot tell you how much I appreciate your help and commitment to this yearbook. It would never have been possible without you. Thanks for always being there.
Joy - I'm so glad we've become such good friends these past three years. Your friendship means the world to me.
Bill - Thanks for being there through all my illnesses - real and imagined. Your strength and courage are truly an inspiration to me. Joan Crawford doesn't hold a candle to you! Oaks, Miller, Boselli, and Short. It has a nice ring to it.
To the whole gang (you know who you are) - Thanks for adding fun to these four years. GOOD LUCK ! - **Lisa C.**

COLETTE LEE, M.D.

TO GOD BE THE GLORY!

Heartiest Congratulations! Your childhood dreams and aspirations have become reality.

You aimed high, successfully achieved, practically wrestled, persevered, endured hardship as a good soldier, pressed on courageously through concerted effort, prayer, faith and trust in God. By His power and help you've made it.

Be determined- Resolve to be God's agent for fulfillment. Establish a powerful, successful partnership with Him who makes the impossible possible.

Mom, Dad and Nennen
Thanks God for your success.
Blessings on you!

ZOYLA ALMEIDA, M.D.

Kristine Maxwell McNulty, M.D.

Kristine, you are beautiful; you fill us with joy. We know you are going to bring much happiness to all the lives that you will touch as a fine doctor. You have acheived great things in your life. From a little girl in pigtails, you have grown to be a woman, a doctor, and a very special person to us all. We have learned from your hard work and dedication. We love you and are very proud of you.

Love,
Mom, Dad, Nicole and Tommy

Lisa Christopher, M.D.

Congratulations on achieving your dream of becoming a physician. We want to wish you all the best, and to tell you we feel so proud and lucky to be your parents. We love your spirit, your liveliness, your exuberance. We are proud of your achievements and wish you continued success. With memories of all you've been, with pride for all you are ,with hope for all you'll be, and with love for you always.

Mom and Dad

Dr. Jason Todd Pecarsky

You have always been a source of pride, laughter and joy. May your enthusiasm and sense of fairness always prevail. You are a shining star and we love you.

Mazel Tov - Doctor Jason
Mom, Dad, Jonathan and Sheri

JOHN F. MEER, M.D.

To John,

Rachel, Kenneth and I are very proud of your accomplishments and congratulate you on your successful completion of the M.D. Degree.

All of your grandparents, uncles and aunts are very happy for you and with you. We wish you the very best and every future success.

Time went by very quickly and it seems like only yesterday when you left Horace Mann to go onto Franklin and Marshall. We hope you will again find time for sailing and skiing and not only hard work.

Now you are graduating from Hahnemann (Allegheny) and going onto your residency in Pediatrics. The years will go by even faster. We know you will do well. Your dedication and leadership qualities are there and your will enjoy a fine career.

We all wish you only the best. Love from everyone.

Rachel, Mill and Kenneth Meer
Lucy, Touba, Anwar

DARLENE JOHNSON, M.D.

CONGRATULATIONS ON A JOB WELL DONE.
WISHING YOU CONTINUED BLESSINGS.
WE LOVE YOU

Aunt Pat, Kerry, Kelly, Cyanna and Bennie

DARLENE JOHNSON, M.D.

For all that you have achieved and accomplished, we are very proud.

For all that you are: sensitive, nurturing, loyal, dedicated, and funny, we are truly thankful.

For all that you have brought to our lives and to those of all you touch, we praise the Lord.

Congratulations on a job well done, and continued success and happiness.

Love, your family
The Smiths, Myrei, Randy, Chris, Aaron

DARLENE JOHNSON, M.D.

CONGRATULATIONS DARLENE!

We are very proud of you.

Grandma, Greg, Lillian, Wesley and Grace

CHRIS MEYER, M.D.
CHRISTINE MEYER, M.D.

Chris-You've made it 'bad boy'!! Little did we know that the guitar-strumming granola would become a member of the family! Despite all the beatings, toothpaste-spitting, and neon-green silly string, we love you! Congrats!

Cat-You've done well-school, husband, self- you've done *very* well. A wise bride once said, "If you want something, don't stop until you have it. I you love someone, give them everything." You've made all of us proud. We love you!

C^2-Matthew 19:6 "What therefore God hath joined together, let no man put asunder."

KIERSTEN ARTHUR, M.D.

Congratulations and good luck, We are both very proud of you. Having watched you grow into a fine young woman has been an ongoing pleasure. On this day of your graduation, your sense of accomplishment must be very gratifying. Enjoy this moment, you deserve it. We wish for you, success and happiness throughout your career.

God bless you, Uncle Pete & Aunt Julie

KIERSTEN ARTHUR, M.D.

Dear Doctor Kiersten,
It is with great pride and excitement that we congratulate you on your incredible accomplishment. No matter what task you have attempted, you have succeeded with honors.

Love always,
Nan, Aunt Maureen and Uncle George,
and Aunt Bev and Uncle Stash

KIERSTEN ARTHUR, M.D.

Congratulations Kiersten!
This is only the beginning.
If you can dream it, you can achieve it.
Always follow your dreams.
We're very proud of you!
Love, Grandma, Aunt Elaine, Uncle Bernie, Uncle John, Aunt Linda, Rick and all your cousins

---

ROSEMARIE MONZO, M.D.

Through the years, you have always made us proud of your diligence in accomplishing your goals. Your dream of helping other people can now be realized in your becoming a physician. Remember we are always here to help in any way we can.

CONGRATULATIONS!

With our Love Always,
Mom & Dad

HIEDI TAYLOR, M.D.

Congratulations to my wonderful daughter. The first doctor in our family. I am so proud of you for your determination and hard work and tenacity. I know your Dad is looking down from heaven and is just as proud as I am and so are your bother and sisters. God Bless you in your future as *Doctor Hiedi Taylor.*

KIERSTEN WESTROL ARTHUR, M.D.

Dear Kiersten,

We are extremely proud of you and your outstanding accomplishments. From your first steps at the early age of eight months, to your achievements both in the classroom and on the athletic field, we have watched you exceed your goals far beyond your peers. It is with proud hearts, a tear in our eyes, and eternal gratitude that we can say:

"*Congratulations Dr. Kiersten* ! "

You continue to be an inspiration to all whom you touch and who have witnessed your journey to becoming the beautiful woman you are today.

Love always,
Mom and Dad

KIERSTEN ARTHUR, M.D.

O'er years and years her dream's been won,
This Tiger's now a caring doc.
With sports and meds combined in one,
Just call our Kiersten "Doctor Jock."

None of us could be any prouder,
L. Grier Arthur
Andrew Arthur
Kathy & Lindsay Arthur

KIERSTEN ARTHUR, M.D.

CONGRATULATIONS KIERSTEN. YOU ARE THE BEST!
Love your Bro, Michael

Dear Kiersten,

I would like to say that I am exceptionally proud of you, but there is nothing exceptional about being proud of my big sister. I have been proud of you my whole life and I have come to expect greatness from your achievements. I am sure that the future will hold much more of the same.

NICE JOB, SIS
Love, Little Bobby

CHERYL L. KEMERER, M.D.

'DOCTOR' CHERYL LYNN KEMERER

Your Grandma wrote in my high school yearbook "No great endeavor was ever achieved without much enthusiasm". I'm sure Gram now sees this reflected in you.

You have always been able to set your goals-develop a plan-and work your plan.

For all you have been,
For all that you are,
For all you have yet to be,
With all of the love, pride
and admiration a parent
could possibly have,
Congratulations!
With Love Always,
Dad

Congratulations
to
SCOTT BIENENFELD

Dr. Barbara**

Congratulations!
Dr. Darlene Racquel Johnson!

I am very proud of you.
May God bless you and guide
you as you begin your chosen
career.

I love you,
Mom

MICHAEL R. GIRVIGIAN, M.D.

Dear Dr. Mike:

With boundless love and immense pride we, your Mom and Dad and all our family, congratulate you on your graduation from medical school and on all of your many years of effort and achievements that have led to this moment. We share in your sense of outstanding accomplishment and are honored in your reaching this milestone, requiring so many years of hard work, perseverance and the exceptional abilities to successfully meet the greatest of academic challenges.

And now, you can take a well-earned pause to savor this opportunity to reflect on your progress toward goals just reached and those that lie ahead. Then, onward and upward again. But in your continuing quest for knowledge, do listen to some words of an ancient sage: "Wisdom is the principal thing...and with all they getting get understanding...Hear, O my son and receive (these) sayings; and the years of thy life shall be many..." (PROVERBS, 4:7-10).

All the success and happiness for a great future!

With love from Mom, Dad and all our family.

CONGRATULATIONS TO

JON VOGEL, M.D.

and the entire graduating Class

We forgive you for wrecking the Mustang

Mom and Dad

CONGRATULATIONS

president clinton, mr. & mrs. north and south america & all the ships at sea.

Dr. Scott R. McGlynn

Congratulations on
completion of a
long, hard journey
Mom & Dad

Constance & Ronald McGlynn

Dearest David,

We are the most fortunate Grandparents, having a wonderful Grandson like you! You've been exceptional since childhood and have continued in your warm, loving and caring ways. You have outstanding qualities and have used them well throughout all your activities. It's been a joy to see your progress in life and especially through your university and medical school years. We have always heard of your desire to a doctor "to help others". May God continue to bless you so that all your future plans and desires may come to fruition.

With your marriage, Beth now joins you in our hearts and with qualities you both have your future together as Family Practice Doctors has no limits. May your lives be blessed in all ways, always!

On this great occasion of your graduation from medical school, we honor you, we celebrate you, and congratulate you both on the high achievements you have accomplished.

We know we have the greatest Grandson and now the joy of a dear Granddaughter!

Blessings and we love you both dearly,
Grandma and Grandpa Hollenbeck

Dear Doctor David,

We are thrilled beyond words for you on this momentous occasion in your life! Our loving congratulations! We can never begin to convey to you how very proud we are of you & how very much we love you!

Becoming a medical doctor is a tremendous accomplishment! You will be a most caring and compassionate doctor and your patients will be so fortunate to have you as a doctor!

You are, and always will be, our life's greatest joy and blessing! You are an outstanding, remarkable, exceptional person and a wonderful, loving, "A#1" son! There couldn't be a better one! you have always given us such joy and happiness! We love you so dearly!

Our joy and elation over your graduation from medical school is doubled by your May 17th marriage to Beth...now Dr. & Dr. Candow! Welcome to the family, Beth! We love you!

We wish you both all of life's very best always and great success and fulfillment in your family practice!

All our love always,
Mom and Dad

Dear David,

It is with great pride and joy that I congratulate you upon your graduation.

You have brought our family only joy and happiness all of you life and we are so grateful for that.

I know you have worked long and hard in your endeavors in your training. May you find success and happiness in your chosen field of caring, comforting and healing.

My love to you, David and Beth, as you face the future together.

Love,
Grandma Candow

Dear Beth,

We are so very proud of you.

Go out into the world and make it a better place for your having been there.

WE LOVE YOU!

MOM, DADDY, MICHAEL, AND STEVEN

TOP TEN SLOGAN FOR DR. JASON M. SCOPP'S ORTHOPEDIC PRACTICE

10. You, too, can help reduce my student loans by $3.75 per office visit!
9. Monthly Specials! Two Bones set for the price of one or double airline miles.
8. Instead of using those pesky medical terms for bones, I just refer to them as "The Big Ones or the Little ones".
7. If you break a bone I can't fix, I'll break the one next to it and fix it for free!
6. I'm extremely loyal...I've gone from "Emil to E-mail".
5. For your first surgery, Ill wear my special "grad" pants...You'll wear a hospital gown designed by Brook Brothers.
4. Convenient Office Hours: Closed during bike racing, weight training, spinning and other passions...
3. All Prescriptions must be taken with Kraft Macaroni & Cheese...from the pot...eaten with a wooden spoon.
2. After four years at Cornell and 4 years at Hahnemann, I finally understand Beavis and Butthead.
1. I have a warm heart and a warm stethoscope.

Jason, you are the definition of determination, dedication, drive, compassion & success. You make us proud!!
Love,
Mom & Dad
Jon & Ange
p.s. Don't forget those 3 deep breaths!!

To Dr. **LISA DANEKER AHRENDT**,
Success is a journey, not a destination. Some people dream of it, while others wake up and work hard at it. May your persistence during adversity continue to be a source of strength to all those around you. We are so fortunate to have you in our family. Your dimples always brighten our lives.
You have our love, respect, and admiration. Always remember '...and this too shall pass.'
GOOD JOB,
Mom, Dad, Jesse, Kirsten, Mildred,
Marveen, Wilfred, and Marley

Pinnacle Health

Harrisburg, Pennsylvania

PinnacleHealth System recently formed an Academic Alliance with Allegheny University of the Health Sciences.

As of December 31, 1995, Polyclinic Health System and Capital Health System merged to form PinnacleHealth System. This means that our residency programs will enjoy a very large clinical teaching base of patients. PinnacleHealth at Polyclinic Hospital offers residency programs in Internal Medicine and Surgery and PinnacleHealth at Harrisburg Hospital offers a residency program in Family Practice.

Based on 1995 statistics, Pinnacle Hospitals have 37,218 Admissions per year; 63,423 Emergency Room visits; 5,789 Deliveries; 1,267 Cardiac Bypass Surgery Procedures; and 38,856 Clinic Visits. The size of this single community teaching hospital with multiple sites and 740 beds is one of the five largest in Pennsylvania. We feel very positive about the opportunities that this merger offers for teaching clinical medicine in our approved residency programs.

Should you have any further questions regarding our Internal Medicine and Surgery residency programs, please contact Erica A. Zerbe, Resident Recruiting Coordinator at (800) 542-9211 or (717) 782-2985.

If you have any questions regarding the Family Practice residency program at Harrisburg Hospital, please contact Ellen G. Smith, MD, Director of Education, at (717)231-8650.

The U.S. Postal Service issues stamps commemorating Hanukkah, the first non-Christian religious holiday ever featured on a stamp.

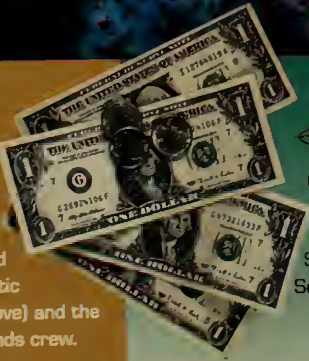
Casual Fridays become more and more widespread in American work culture. Businesses allow employees who normally dress in professional clothing at work to wear more comfortable, casual clothing on Fridays.

A "Sesame Street" stuffed toy causes panic among holiday shoppers. Tickle Me Elmo sells out in stores nationwide, and has shoppers fighting over scarce inventory and paying hundreds of times the toy's value.

The My Twinn Doll Company offers individually crafted dolls that replicate, from a photo, the eye color, hair and facial features of a living girl. Each doll comes with two matching outfits, one for the doll and one for the owner.

Nail polish colors get darker and funkier. Deep browns and blues are popular forms of expression and style.

The ongoing dance craze is the "Macarena," a Latin line dance. People of all ages participate in the dance, including Olympians, delegates and workers of the Democratic National Convention (above) and the New York Yankees grounds crew.



The minimum wage is raised to $4.75 in October, and will increase again to $5.15, effective September 1, 1997.

CAFFEINE ENHANCED
WATER JOE
NATURAL ARTESIAN WATER

The beverage industry introduces a new concept—bottled water with caffeine! One bottle of the uncarbonated water contains as much caffeine as one cup of coffee.

Disney's *101 Dalmatians* inspires an avalanche of promotional merchandise, filling stores with spotted toys, backpacks, games and other odds and ends.
